Bottle Cooler Function	•			

Automatic defrost is controlled by a microprocessor, which can save on energy bills. Rather than running for a fixed time, it actually tests the temperature, adapting, for example, to lighter usage or less humid conditions.

A section in the door is specifically designed to hold large cartons of juice or milk, to keep drinks fresher for longer.

Tilting door baskets ease loading and increase capacity, without you having to wedge cartons in place.

A straightforward, easy-to-use digital display shows the current temperature settings for each compartment.

The Elevator shelf provides an excellent storage solution. By rotating a handle you can move the shelf up and down to accommodate different sizes, without the need to reorganise the shopping to slot in awkward items. Should there be any accidents inside the Refrigerator, each shelf has a spill-saver ledge around it, which can hold up to 12 fl. oz without the need to pull out and clean.

A built in icemaker provides a choice of crushed and cubed ice or chilled water, all filtered for purity.

There are helpful labels on individual shelves to recommend which type of food is best stored where.

The icemaker features a child-lock function to prevent curious fingers making a mess.

**Fire and Ice range**  
AGA Cook Shop has a fantastic range of exclusive Fire and Ice ceramic products ideal for use in the AGA, refrigerator and freezer and great oven to tableware. Can be used directly on the hotplates and the roasting dish and baking tray will fit directly on to the shelf runners of the AGA ovens making maximum use of oven space.

Among the key features of the AGA Side-by-Side fridge-freezer are:

- The Side-by-Side fridge freezer has an 'A' efficiency rating.
- Six designated cooling zones, designed to cater for dairy products, drinks, salads, fruit and vegetables, and meat and cheese. Arranged to give specific food types exactly the right temperature they need – and to retain just the right amount of moisture.
- A cool-down compartment at the top, next to the ice-maker brings your shopping to the optimum temperature after it has inevitably been warming up on the journey home.
- "Temp Assure" technology which prevents food drying out and retains moisture, freshness and food's essential nutrients.
- Frost-free technology prevents the build up of ice and improves the overall efficiency, while protecting the flavour and texture of your food.
- Microban®-impregnated interior, which is hygienic and durable.
- Total capacity is over 25 cubic feet (700 litres).
- Highly insulated door guarantees the best use of energy and aids noise reduction.

AGA Refrigeration  
coolly, confidently

The new Refrigeration Collection from AGA is everything you would expect from one of the world's most trusted brands.

Innovative in their use of technology and as beautifully designed as the iconic range cooker from which they draw their inspiration, each item in the collection is truly worthy of bearing the AGA badge.

So if you love fine food and expect the highest standards of food storage, you'll find the refrigerator featured in this brochure just like the famous AGA itself – beautifully tailored, hand-crafted to the very highest standards, supremely reliable and designed to perform.

#### AGA Side-by-Side fridge-freezer

The new AGA Side-by-Side Refrigerator is so much more than a stunning focal point in the kitchen. It has undergone rigorous testing to ensure optimum performance. Boasting numerous state of the art features the new AGA Side-by-Side Refrigerator is more accomplished than ever. Designed to complement an AGA cooker perfectly, the Side-by-Side is available in a choice of colours drawn from the AGA palette and the refrigerator comes with an impressive A efficiency rating.

The AGA Side-by-Side fridge-freezer boasts numerous state-of-the-art features designed to ensure food stays fresher longer.

#### SIDE - BY - SIDE REFRIGERATION

With bespoke compartments, adjustable temperature control and clever storage solutions, the AGA Side-by-Side Refrigerator is at the cutting edge of food storage.
